Education

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science | CGPA: 7.2

Mumbai, India

2022 – 2026

World Model Higher Secondary School

HSC | Percentage: 97.4%

Jammu, India

2021 – 2022

Relevant Coursework

- Database Management Systems
- Object-Oriented Programming
- Machine Learning
- Data Structures & Algorithms
- Operating Systems
- Computer Networks

Work Experience

Software Development Intern | [Origins Tribes Pvt. Ltd. \(FMCG\)](#)

Jan 2026 – Jun 2026

[Origins Tribes Website](#) — React.js · PHP · SQL · REST APIs · Postman · AI Agents

- Architected high-performance database layer leveraging AI coding tools for intelligent query optimization and strategic indexing, reducing API response time by 45% and enabling scalable data handling under production load.
- Designed and hardened backend infrastructure using AI agents for intelligent architecture planning and automated code quality validation, ensuring enterprise-grade reliability and accelerating time-to-production.
- Developed and tested 25+ RESTful APIs and React.js components using PHP, SQL, Postman, and Thunder Client, delivering robust frontend-backend integration for seamless platform functionality.

Projects

InfinityPlay | [Next.js](#), [MongoDB](#), [GridFS](#), [JWT](#) | [GitHub](#) | [Live Demo](#)

Full-stack web platform for playing classic Flash games in modern browsers using the Ruffle emulator.

- Integrated the Ruffle emulator to enable browser-based execution of 100+ legacy Flash games without requiring Adobe Flash Player, providing seamless gameplay across modern browsers.
- Engineered file storage and retrieval using MongoDB GridFS for SWF game files and thumbnails, with Next.js API routes supporting game upload, retrieval, deletion, categorization, voting, and issue reporting.
- Configured JWT-based authentication and role-based access control for admins and super users, securing game and administrator management operations.

ResuFit | [React](#), [Node.js](#), [Express.js](#), [MongoDB](#), [Cohere AI](#), [Firebase](#), [Machine Learning](#) | [GitHub](#)

AI-powered full-stack resume analysis platform providing ATS-style scoring and personalized resume improvement feedback.

- Created 10+ RESTful APIs using Node.js and Express.js for resume uploads, revision history, and administrative workflows, integrating Cohere AI to generate ATS match scores in under 15 seconds per resume.
- Designed a React.js dashboard for resume analysis, score visualization, and revision tracking, with Firebase Authentication and role-based access control supporting 100+ test users.

ShareKare | [Django](#), [HTML5](#), [CSS3](#), [SQLite](#), [Leaflet Maps](#) | [GitHub](#)

Full-stack donation and redistribution platform connecting individual donors with NGOs.

- Architected role-based dashboards for donors, NGOs, and administrators using Django Authentication, providing 3 distinct access levels and reducing donation moderation time by 25%.
- Integrated the Leaflet Maps API for location-based donation discovery within a 10km radius, along with campaign calendar invites and real-time notifications, improving user engagement during testing by 30%.

Technical Skills

Languages & Database: C++, JavaScript, Java, Python, SQL, MongoDB

Frameworks & Libraries: Node.js, Express, JWT, NPM, React.js, Next.js, NumPy, Pandas, Matplotlib

Tools & AI Agents: Postman, Thunder Client, Docker, Figma, GitHub, GitHub Copilot, Gemini CLI, Claude Code, Antigravity

Architecture & DevOps: Algorithms, CI/CD, AWS (S3, EC2, Load Balancer), CI/CD

Certifications

- **Web Development Fundamentals** — IBM SkillsBuild
- **Artificial Intelligence Fundamentals** — IBM SkillsBuild
