Education

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science | CGPA: 7.2

Mumbai, India

2022 – Present

World Model Higher Secondary School

HSC | Percentage: 97.4%

Jammu, India

2021 – 2022

Relevant Coursework

- Database Management System
- Object Oriented Programming
- Machine Learning
- Data Structures & Algorithms
- Operating Systems
- Algorithm Analysis

Work Experience

Software Development Intern — Origins Tribes Pvt. Ltd.

Jan 2026 – Jun 2026

React.js · PHP · MongoDB · REST APIs · NLP · Postman

- Built and shipped responsive web features using React.js, PHP and MongoDB in an Agile team, actively participating in sprint planning, code reviews, and timely feature delivery.
- Designed an NLP-based intent classification module and chatbot to automate customer query routing, significantly reducing manual support workload and improving response times.
- Validated API endpoints and UI components using Postman and Thunder Client; identified and fixed pre-deployment bugs ensuring stable, regression-free production releases.

Projects

InfinityPlay | React, Node.js, Express, JWT, MongoDB | [GitHub](#) | [Live Demo](#)

Game hosting platform bringing legacy Flash games back to life in modern browsers with NLP-powered search.

- Integrated the Ruffle emulator to execute Flash games natively in-browser without plugins also used MongoDB GridFS for scalable storage and retrieval of large game files.
- Implemented a JWT-secured admin dashboard for content moderation and prepared Sentence Transformer-based semantic search using cosine similarity for intent-aware game recommendations.

ResuFit | React, Node.js, Express, MongoDB, Cohere AI, Firebase | [GitHub](#)

Full-stack AI resume analyzer that delivers instant ATS-style scoring and personalized improvement feedback.

- Built Node.js/Express REST APIs to handle resume uploads, maintain revision history, and power an admin panel; integrated Cohere AI to parse resumes and generate match scores with feedback.
- Developed a React dashboard featuring score visualization and resume history tracking and Firebase Authentication for secure user sessions and role-based access control.

ShareKare | Django, HTML, CSS, SQLite, Leaflet Maps | [GitHub](#)

Community-driven donation and redistribution platform connecting individual donors with NGOs.

- Developed multi-role dashboards for donors, NGOs, and admins using **Django's authentication system** for role-based access; leveraged the Django admin interface for donation moderation and activity monitoring.
- Integrated Leaflet Maps API for geolocation-based donation spot discovery, calendar invites for campaigns, and real-time in-site notifications to maximize user engagement.

Technical Skills

Languages: C++, Java, JavaScript, Python, HTML, CSS, SQL, MongoDB

Frameworks & Libraries: React, Node.js, Express, Django, TailwindCSS, Bootstrap, Material UI

Tools & Platforms: Git, GitHub, Docker, Figma, Postman, Thunder Client, XAMPP, Claude Code

Extracurricular

- **Event Head, ACSES | CSE Dept. Committee:** Led a team of 10+ coordinators to organize online workshops on Java and Machine Learning; managed scheduling, speaker coordination, content flow, and promotions.
- **Mentor, Abhyudaya–SPJIMR:** Guided students (Grades 7–10) in academics and life skills; tracked progress of underprivileged learners.
